Repair of Water Damaged Properties

FOIAb3a

REF

Memorandum to Chief, [REDACTED] from the Chief, [REDACTED]  
dated 4 December 1952, Subject: Report on Water Damage and  
Recommendations for Action.

1. Your recommended plan for new construction to avert  
possible future water damage to buildings and property has been  
received by this office and is approved.

2. There is a possibility that an attempt may be made to  
invalidate the [REDACTED] release because the drainage system will  
not be exactly the same as when the release was signed. Although  
this possibility is remote, you should be aware of it.

3. Since it is not clear where you will obtain the soil to  
fill in behind the newly constructed retaining walls, a caution  
that the bulldozing of other peoples' property may lead to new  
claims is in order.

4. Procedurally,

a. After formally advertising for sealed bids the lowest  
of at least three bids must be accepted, all other things  
being equal.

b. Bids should be submitted in detail and itemized both  
in respect to cost of labor and cost of supplies, equip-  
ment and services procured by the successful bidder.

c. The award to the lowest bidder must be formalized  
in writing.

d. Copies of the lowest three bids together with a copy  
of the formal notification of award should be forwarded  
to the Administrative Office.

e. Usual payment procedures will maintain after satis-  
factory completion of the work.
